To Whom It May Concern

RE: JAMES THOMPSON TRADING AS ZIM PLUMBING

Personally and through my business I have known James Thompson for several years, and have been using his services and recommending them to our clients. He has my permission to use photographic evidence of his bathroom installation carried out in my own house in Weybridge.

I am happy to recommend Mr Thompson's services – he is most conscientious and, unlike so many trades people, leaves your property spotless whether he has finished a day's work or finished the project!
